## Coin Accessories

Catalogue 2023

**Max, Kurt and Axel Stürken (from left to right)**

## Dear collectors,

Passion and pleasure are two terms that we, at LIGHTHOUSE, have associated with our accessories for more than a century. More than 6,000 products now bear the LIGHTHOUSE brand name, which has become a symbol of practicality and quality.

**Croatia will be introducing the Euro as its official currency** from 1 January 2023, and the Croatian kuna will no longer be legal tender. This will make Croatia the 20th member of the European Union whose official currency is the "Euro". It goes without saying that we have updated and adjusted all our products regarding euro sets of coins in circulation in line with the introduction of the euro in Croatia.

Besides our main range of products, this new edition of our Accessories catalogue includes lots of new arrivals that we would like to present to you.

Our new **KURT top-quality leatherette zip up ring binder case** is ideal for transporting coins, stamps, banknotes, postcards etc. Your collection is safe from prying eyes thanks to the zip.

The new **TOSCANA book safe** is the perfect hiding place for your valuables, documents, cash and jewellery. On the outside it looks like an Italian culinary travel guide, meaning it does not look conspicuous when placed on your bookshelf.

We conducted a **customer survey** a while back, and were exceptionally pleased to receive such positive feedback concerning our products, customer service and the good value for money that we offer. We intend to keep it this way. That is the reason why your feedback is particularly important to us, so that we can satisfy your needs in the future too. Please continue to support us with your comments, suggestions and even criticisms.

Everyone needs to have a passion for something! We hope you enjoy browsing our coin accessories catalogue.

### Use the quickfinder to find your way around the catalogue!

The accessories catalogue is subdivided into different categories. One category is "optical accessories", for example. Every category is assigned a colour, i.e., "optical accessories" is orange. On the following pages, you will find a coloured section on the right-hand margin which indicates the colour of the respective category. This means you will be able to recognise immediately which category you are looking at. The quickfinder primarily helps you to jump to the desired accessory category, without having to look through every single page of the catalogue. Try it out!

## Launch of the euro currency in Croatia as from 1 Jan. 2023

Croatia is joining the eurozone! Croatia will be introducing the euro as its official currency from 1 January 2023, making it the 20th member of the European Union whose official currency is the "euro". The euro will replace the Croatian kuna. The kuna (meaning marten in Croatian) has been the official currency of Croatia since 30 May 1994. In order to get used to the new currency and have a better idea of what it will look like, pricing in both currencies (euro/kuna) will become mandatory as from September 2022. This will continue to be the case after the official introduction of the euro and remain in place for one year, i.e. until the end of 2023. It goes without saying that we have updated and adjusted all our products regarding euro sets of coins in circulation in line with the introduction of the euro in Croatia.

**Lunar III:** It's quite rare for a coin set to be issued multiple times. However, the Lunar series from Australia has become such a great success that the Perth Mint issued a third series featuring animals from the Chinese lunar calendar. The first Lunar III series, depicting the mouse, was released in 2020. Produced in gold, silver and platinum, the Australian "Lunars" are strictly limited edition and have thus become highly sought-after collector's items.

**Queen's Beasts:** Queen's Beasts: Who'd have thought that a coin set featuring British heraldic animals would become such a huge success? The Royal Mint's "Queen's Beasts" coins took the bullion world by storm – between 2016 and 2021, a total of eleven coins were issued, each bearing the mark of a particular aristocratic estate.

**VOLTERRA presentation case for 60 silver coins 40–41 mm Ø**

This high-quality, mahogany-coloured presentation case is great for storing up to 60 encapsulated silver coins (40–41 mm Ø). Three trays with a blue mock velour surface and 20 circular ports (47 mm Ø) for storing encapsulated coins. With satin on the inside of the lid. The wooden-framed trays and gold-plated hinges are extremely sturdy. Unobtrusive magnetic fastener. Overall size: 330 x 55 x 270 mm (13 x 2 1/8 x 10 5/8").

## The value of gold

Currencies, rulers and nations have come and gone, but gold has endured – as a perpetual currency. The shiny yellow metal is famous and serves as inspiration – not only collectors around the world, but to investors in search of a “safe haven” too. Gold has gained popularity in Germany since the onset of the global financial crisis and is becoming increasingly attractive to more and more investors.

The first investments into this precious metal were made in 1967. South Africa conducted a bold and risky experiment, introducing the Krügerrand, a gold coin with no face value, which became a worldwide success. Since then, the springbok has become the veritable epitome of investment in precious metals. Indeed, lots of other countries, such as Canada (Maple Leaf), USA (American Eagle) and Austria (Vienna Philharmonic), have also followed suit and are not far behind. All are classed as ‘bullion coins’ that are minted specifically for the investor, but which also enjoy official currency status. This is a quality that demonstrates additional trust. Besides bullion coins, however, collectors’ coins made of gold are also very popular – gold coins had been considered taboo in Germany until 2001, but the country now plays a leading role in minting gold coinage. With magnificent motifs and weights in every price bracket, coins from the German Mint appeal to both investors and collectors alike. Whether a gold coin is intended for entry into a private collection or is sent to a precious metal depot, high-quality accessories are essential for preserving its value in the long term. This is because both bullion coins and historical collector’s items should be in pristine condition if they are to fetch the best price at auction or when sold. Safe storage and the proper maintenance of both the modern Krügerrand and German Empire gold are, therefore, highly recommended to ensure that gold continues to fulfil its function as currency protection for generations to come. Accessories for the most popular gold coins are found on the following pages.

### MILITARIA vitrine

**NEW**

Features a glass front for a stylish display

For storage of insignia, medals and badges of honour, we would also recommend our storage pockets – see page 96.

The MILITARIA vitrine is the perfect place to store insignia. Thanks to a foam base covered in mock velour, these collectors' items can be held in place by means of the pin. The glass display is surrounded by a mahogany-stained frame, for elegant presentation of your medals. There are different ways to present the display case (included in delivery) such as hanging on the wall. Gilt hinges and a secure magnetic closure.

Overall size:  
380 x 255 x 30 mm (15 x 10 x 1 1/4").

## "Euro Souvenir" banknotes

The concept of the "Euro Souvenir" banknote was introduced in 2015.

These banknotes are sold at vending machines, or either at the reception desk or in the souvenir shops at museums, amusement parks or other tourist attractions. They are now available in many countries and are quite sought after by collectors.

"Euro Souvenir" banknotes are manufactured in the same printing works that print genuine euro banknotes.

They have some of the security features typical of real currency and are printed on special security paper. Each note has a watermark, a metal strip in the paper, tactile relief, a hologram, microprinting, see-through register, fluorescent/invisible ink, serial letters and a control number.

Certain extra characteristics (such as the use of the colour purple) mean that they cannot be confused with genuine currency. We stock a wide range of accessories for storing your "Euro Souvenir" banknotes.

## Album for 420 "Euro Souvenir" banknotes

This banknote album, with 70 sturdy, bound transparent sheets, has space for 420 "Euro Souvenir" banknotes (when used front and back). The sheets are made from plastic, are free from chemical softener, and provide safe storage and protection from dirt. Colourful, laminated cover with various motifs from the first "Euro Souvenir" banknotes. Overall size: 180 x 255 x 55 mm (7 x 10 x 2 1/8").

## **Boxes, cases and presentation cases**

In order to be able to safely store your unique collection for many years to come, we recommend LIGHTHOUSE coin drawers, sturdy coin cases, elegant wooden presentation cases and stylish coin etuis. Choose your storage solution from our huge selection. Our coin drawers, for instance, provide a tried-and-trusted system, containing almost 40 different compartments that can be expanded, combined and stacked accordingly. A coin case is the most secure storage and transport solution for your coins, and will stop them from getting damaged. The high-quality workmanship of LIGHTHOUSE VOLTERRA wooden presentation cases and the wide range of embossing choices for particular types of collections (e.g. one-ounce silver panda coins) or personalised embossing make this the ideal luxury storage solution for your valuable coins, not to mention our wide range of distinguished coin etuis, which will take your breath away. See for yourself on the following pages ...

## Coin boxes MB – Is there a better way of presenting your coins?

LIGHTHOUSE has around 40 different coin drawers in stock, varying in colour, shape and compartment size. The coin drawer systems can be extended to suit your needs. The drawers are stackable and feature velvety inlays. Our MB coin drawers even fit into most safe deposit boxes. Overall size: 236 x 20 x 303 mm (9 1/4 x 3/4 x 12").

LIGHTHOUSE offers attractive designs together with sophisticated functionality and optimum protection for your collection.

## INTERCEPT®-Box L180 for letters and postcards The box with active protection against ageing and oxidation

The L180 box actively protects your collection from ageing and oxidation thanks to the INTERCEPT® material inside. Ideal for protecting paper, coins and medallions. Suitable for postcards, letters, stockcards, documents, coin sets, etc. up to 180 x 160 mm (7 x 6  $\frac{1}{4}$ " in size. Overall size: 338 x 167 x 204 mm (13  $\frac{1}{4}$  x 6  $\frac{5}{8}$  x 8").

The way an INTERCEPT® box works is based on over 30 years of patented INTERCEPT® technology: The copper particles contained in the material permanently bond with corrosive gases and create a neutralised atmosphere in the shortest time possible, protecting documents and coins from ageing or tarnishing (at least 15 years guaranteed protection!\*). The effect has been proven according to approved DIN, EN, ISO and ASTM standards.

Ref. No. 345 417

€ 44.95

\* You can notice any deterioration in the effectiveness of the material if you see a dark grey to greenish discolouration of the film (not stored items!). If this happens, you should replace the INTERCEPT® product with a new one.

## TOSCANA book safe

Can be stored away safely in your library – inconspicuous

The LIGHTHOUSE TOSCANA book safe is the perfect hiding place for your valuables, documents, cash and jewellery. On the outside it looks like a culinary travel guide, but when you open the book up, it actually contains a steel safe with a secure cylinder lock. By assuming the format of book pages in plastic, the book looks extremely authentic and is completely inconspicuous. Due to its small size, this book safe is ideal for taking on your travels. Steel safe (thickness: 0.8 mm).

Two keys are included, each with a separate key number that is unique to the integrated lock.

Size of safe (inside):  
229 x 137 x 40 mm (9 x 5 1/2 x 1 3/8").

Size of book:

## A secret hiding place for your valuables.

The LIGHTHOUSE book safe is the perfect hiding place for your valuables, important documents, cash and jewellery.

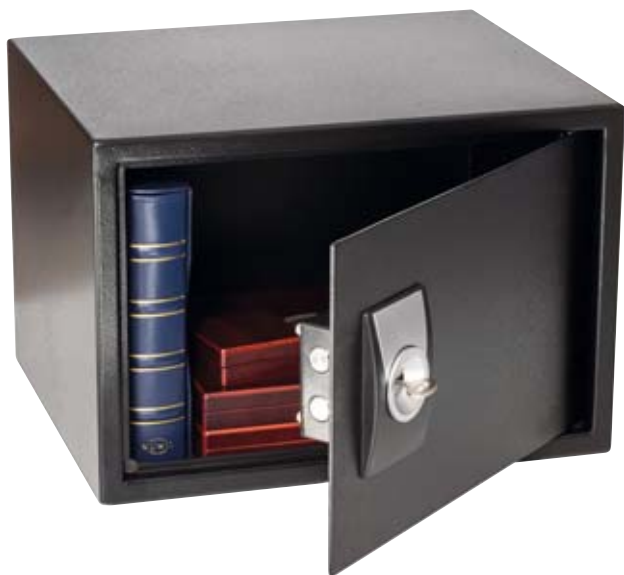

### Book safe with key

Psst! It's a secret: the LIGHTHOUSE book safe is the perfect hiding place for your valuables, important documents, cash and jewellery. On the outside it looks like a LIGHTHOUSE stock book, but when you open it up, the inside contains a steel safe with a secure cylinder lock. By assuming the format of book pages in plastic, the book looks extremely authentic and is completely inconspicuous. Due to its small size, this book safe is ideal for taking on your travels. Material: Leatherette cover, safe made of steel (thickness: 0.8 mm). Also included: two keys, each with a separate key number that is unique to the built-in lock. Book colour: black with gold embossing. Size of safe (inside): 229 x 137 x 40 mm (9 x 5 1/2 x 1 5/8"). Size of book: 240 x 155 x 55 mm (9 1/2 x 6 1/8 x 2 1/8").

Unobtrusive, looks just like a normal LIGHTHOUSE stock book.

# Coin capsules, holders and storage options

LIGHTHOUSE has a huge choice of coin capsules to provide the best protection for your coins. Besides our very popular, tried-and-tested round coin capsules in every diameter from 14 mm to 101 mm, with and without a rim, LIGHTHOUSE also offers square coin capsules in the QUADRUM and QUICKSLAB series as well as coin holders. The ULTRA range now also has Perfect Fit capsules that fit the most popular coins. With their special membrane, our new MAGIC CAPSULES are ideal for your special coins (e.g. particularly thick or triangular).

Would you like to know about coin capsules that actively stop coins from becoming tarnished? More details are available on our website at [www.leuchtturm.com/intercept](http://www.leuchtturm.com/intercept), your local dealer or request our separate flyer on the subject.

## ULTRA Perfect Fit round coin capsules

without rim

The new ULTRA Perfect Fit premium coin capsules are *tailor-made* for many of the most common coins. Capsules are available for all euro coins and the most prevalent bullion coins – their precise measurements enabling the coins to sit snugly, with no sliding or wobbling. A really perfect fit!

The capsules are made from high-quality polyacrylic (PMMA), meaning they are particularly scratch-resistant and display the coins superbly.

## Storage of SLABS (certified coin holders)/QUICKSLABS

Many American coin collectors have their coins certified by independent verification services such as the NGC\*, PCGS\* or ANACS\*. In addition to authenticity, the examined coin's standard of preservation is also established. A special feature of this grading process is the subsequent sealing of the coin inside a special square coin capsule (a "slab"). In addition to the examined coin, the "slab" also contains the certification information. The special construction of the "slab" makes it impossible for the capsule to be opened again without it being destroyed. To protect against forgery, the capsule has various additional security features, such as a hologram or a watermark.

\* (NGC: Numismatic Guaranty Corporation, PCGS: Professional Coin Grading Service, ANACS: American Numismatic Association Certification Service)

15 years' protection against ageing\*

The way an INTERCEPT® box works is based on over 30 years of patented INTERCEPT® technology: The copper particles contained in the material permanently bond with corrosive gases and create a neutralised atmosphere in the shortest time possible, protecting the coins and documents from tarnishing (guaranteed protection for up to 15 years!\*). The effect has been proven according to approved DIN, EN, ISO and ASTM standards. In order to prolong the effectiveness of the INTERCEPT® box beyond 15 years, it is recommended that you close the box immediately after use and avoid opening it frequently.

\* You can notice any deterioration in the effectiveness of the material if you see a dark grey to greenish discolouration of the film (not the coins!). If this happens, you should replace the INTERCEPT® product with a new one.

Furthermore, this section contains coin tweezers, coin cleaning baths, helpful UV inspection lamps and lots more items for coin care, cleaning, measuring and weighing.

# Handle magnifiers – the perfect perspective

**TOP  
SELLER**

**NEW: now featuring a second lens for even more magnification.**

## Magnifying glass with handle 2–6X

Handy handheld magnifying glass with 2 lenses, each with different magnification strengths. Very light thanks to the acrylic lenses. Both of the aspherical lenses ensure exceptional sharpness at the edges. The larger of the two lenses is ideal for reading or viewing entire stamps and coins. This magnifying glass helps to examine the item more easily, initial details are visible. Most of the details are visible using the smaller of the two lenses. The frame and handle are made of black plastic.

### LU 1

2 acrylic lenses: Ø 50 mm / Ø 15 mm (2 <sup>3</sup>/<sub>8</sub>" ), magnification 3X and 6X.

Size: 145 x 52 x 12 mm (5 <sup>3</sup>/<sub>4</sub> x 2 x 1/2").

### LU 3

2 acrylic lenses: Ø 90 mm / Ø 20 mm (3 1/2 <sup>3</sup>/<sub>4</sub>" ), magnification 2X and 4X.

Size: 185 x 92 x 12 mm (7 1/4 x 3 3/8 x 1/2").

Ref. No. 321 182

€ 13.95

Exceptionally lightweight thanks to the acrylic lenses.

## CLASSIC 3X handheld magnifier

Elegant handheld magnifier with gold-coloured metal frame and mock rosewood handle. Top-quality glass lens with 3X magnification. Ideal for viewing stamps or coins. This magnifying glass helps you to examine the item more easily, such that fine details become visible. Also assists with reading. Lens diameter: 50 mm (2"). Size: 121 x 52 x 10 mm ( $4\frac{3}{4}$  x  $2\frac{3}{8}$ ").

### LOOK magnifier set 2.5–10X

This set of magnifiers brings together 3 of the most popular magnifiers in an optimal combination, so that you're equipped for any situation:

The **frameless magnifier** with a handle and 3X magnification enables viewing of larger objects thanks to the especially large acrylic lens (diameter 90 mm/3 1/2") and 2 white LEDs.

The compact **pocket magnifier** has 5 functions in one gadget: a large lens with 2.5X magnification (lens diameter 30 x 37 mm/ 1 1/4 x 1 1/2"), a small lens with 10X magnification (diameter 15 mm/5/8"), a UV lamp, LED pocket torch and a pull-out ballpoint pen. Due to the compact design, it is ideal for travelling, e.g. when visiting fairs or for shopping.

The **precision magnifier** (lens diameter 21 mm/ 7/8") provides high-resolution definition for the finest of details, thanks to its 10X magnification and 2 white LEDs.

## Did you know?

### Magnifiers with 2–3X magnification

These magnifiers are suitable for viewing whole stamps and coins. The image found on the object can be easily viewed with their help and the fine details become visible. These magnifiers can also be used as a reading aid.

### Magnifiers with 5–7X magnification

The majority of details can now be identified. Unfortunately, increased magnification of the diameter lens also means reduced reading surface. The distance between the eye and the magnifier as well as between the magnifier and the object is minimised.

### Magnifiers with 10–20X magnification

You are now very close the Stamp Collectors ultimate piece with this magnification and the smallest details are visible. Individual pixels can be differentiated for the majority of printing processes. You can't get a finer detail than this.

### Microscopes

Intaglio printing becomes more vivid, microprinting can now be viewed more easily and safer, and plate flaws are more easily detectable.

### Digital microscopes

Thanks to digital technology, stamps and coins can be viewed on the screen. The software provided allows you to capture images of the objects, save them and edit the image.

### Light

A good source of light is vital but not always available. LED technology now gives light to even the smallest of magnifiers so that objects being viewed are well illuminated. You can now purchase LEDs with long-wave UV light for identifying fluorescence.

# Folding magnifiers

### Pocket folding magnifier 3X

Pocket folding magnifying glass, magnification 3X, and black, genuine leather pouch. The high-quality glass lens (diameter of lens: 40 mm/1 5/8") provides an image without distorting the edges. ### Ultra bright magnifying glass 4X

Bright field magnifier with 4X magnification. The glass lens (diameter: 75 mm / 3") is placed directly on the item to be magnified. The plano-convex shape of the lens provides optimal light conditions, and the surface below the magnifying glass appears brighter than its surroundings. Consequently, the magnifier is perfect for reading or viewing stamps, postcards and banknotes. The bright field magnifier is handy and compact, and comes in a black velvet pouch that protects the lens from being scratched.

### MONOKEL magnifying glasses 10–25X

The MONOKEL LED magnifying glasses are perfect for activities which require both hands. Check and detect details which are not visible to the naked eye, e.g. deviations from the original, minute details or damage.

Comes with 4 interchangeable lenses in different magnifying strengths: 10x, 15x, 20x and 25x. The magnifying glass unit for viewing the object can be moved sideways and folded upwards, meaning that it can be adjusted to fit the face width of the wearer. Features a movable LED light fixed to the side of the magnifying unit. For best results, we recommend keeping a distance of approx. 0.5 to 3 cm between the viewed object and the lens (depending on the lens attached).

Batteries included (3x LR1130).

### FOKUS headband magnifier 1.5–8X

The FOKUS LED headband magnifying glass is ideal for use when working with both hands, e.g. when arranging your stockbook or collector's album, grinding down and working with stones and minerals, as well as for building models and other tricky activities involving close up work. The 3 acrylic lenses (large lens size: 89 x 29 mm/3 1/2 x 1 1/8"), diameter of small lens: 29 mm/1 1/8") have been treated with a special coating, resulting in an absolutely shatter-proof and scratch-free magnifier. The lenses have 4 magnification levels: 1.5x, 3x, 6.5x and 8x. Features 2 bright LED lights. The LED unit can be tilted, pivoted and is detachable. The visor can be raised and lowered as required and fixed using locking screws. Infinitely adjustable headband, padded on the forehead. The magnifier is also suitable for people who wear glasses. Battery-powered: 2x AAA 1.5 V battery (not included). Weight excl. LED unit: 101 g; weight incl. LED unit and batteries: 148 g.
